

### **Outstanding surroundings in the capital of North Rhine-Westphalia**

Duesseldorf is the center of the seventh largest economic area of the world, with some ten million people within a radius of 50 kilometers.

### **Optimal location at Duesseldorf Airport**

Airport City offers you a business site with top infrastructure and location.

### **Duesseldorf Airport City – quality for the highest demands**

Duesseldorf Airport City meets your highest demands on the optimal location of your business. It provides an established local network, good international connections and high development potential. Our Business Park is highly developed and with both its harmonious and friendly and attractive image it stands out for its individual structure.

Your demands are our demands. Welcome to Airport City, the business park with a hotel and conference center in the immediate vicinity of the airport.

### **Individual architecture for highest demands**

Airport City offers you sufficient room for the individual design of your structure and its surroundings. Architectural variety is desired to highlight the attractiveness of Airport City.

### **Exclusive setting in a good environment**

With over 200 companies settled in the immediate vicinity of the Duesseldorf Airport, there is an ideal basis for successful business relationships.

### **Airport City – your new business location**

Express your company philosophy through architecture.

Your individual image will be the focus in Airport City.
